

Worker Protection Standard (WPS) In-Person Workshop - Maui

For farm owners, managers, their employees, and contract workers who work in the field, handle, and/or apply (organic or non-organic) pesticides.

Friday, August 27, 2021

9:00 am to 10:00 am

**MAUI - Kula Agriculture Park Lot #16
(Pulehu Rd, Kula, HI 96790)**

Register (**REQUIRED**) at www.HawaiiCoffeeEd.com/WPSMaui or by calling Matt at 808-322-0164 at least two days prior to the event. Everyone is required to wear a mask and practice social distancing.

Did you know that a farm worker who enters a field (within 30 days of last pesticide application), who handles, and/or applies pesticides, must be WPS trained annually? Many, if not all farms regardless of organic or non-organic farming methods, use pesticides if applying a product to kill a beetle, bug, fungus, mite, rat, or weed.

Learn how to keep yourself, your workers, customers, and the environment safe with the proper use, storage, handling, application, and disposal of pesticides.

This class is open to all employers, owners, managers, and agricultural employees on farms, forests, nurseries, and greenhouses. The class will cover the current Worker Protection Standard (WPS) provisions and requirements.

This training can also be used to satisfy Section 18 WPS requirements for the use of Priaxor® Xemium® on coffee for the management of coffee leaf rust.
