

# CBB IPM & Research Update Workshop - Pahala

Registration is required.

RSVP at <http://www.hawaiicoffeeed.com/cbb-kau> or by contacting Matt at (808)322-0164 at least 2 days prior to the workshop.

Monday, March 13th, 2020  
10:30 am — 12:00 pm  
Pahala Community Center  
96 Kamani Street  
Pahala, HI 96777

Topics will include:

- CBB Integrated Pest Management Updates
- HDOA Beauveria Subsidy Program
  - Save (\$) on approved-Beauveria products
- Update on current coffee research projects

Coffee berry borer (CBB) is controlled using integrated pest management (IPM), which combines various techniques including field sanitation, pruning, spraying of pesticides, and harvest, as no single method will control CBB on its own.

UH-CTAHR, USDA and HDOA welcomes you to join us at this informational CBB IPM and research update workshop for coffee farmers.

**If you have been to a CBB 101 workshop in the past, understand the basics of CBB and its management, have been able to manage CBB to a level that is satisfactory to you, but want to learn about current techniques and research, this workshop is for you.**

This free event is hosted by UH-CTAHR and HDOA and funded by the college and USDA.

For information or to request an auxiliary aid or service (e.g., sign language interpreter, designated parking, or materials in alternative format), contact Matt at 808-322-0164 or [mnmiyahi@hawaii.edu](mailto:mnmiyahi@hawaii.edu) at least seven days before the activity/event.
