

CBB IPM & Research Update Workshop - Kona

Registration is required.

RSVP at www.hawaiicoffeeed.com/cbb-update or by contacting Matt at (808)322-0164 at least 2 days prior—on a first come first serve basis.

Thursday, January 30th, 2020
5:00 pm — 6:30 pm
Kona Cooperative Extension Office
79-7381 Mamalahoa Highway
Kealahou, HI 96750

Topics will include:

- CBB Integrated Pest Management Updates
- HDOA Beauveria Subsidy Program
 - Save (\$) on approved-Beauveria products
- Update on current coffee research projects

Coffee berry borer (CBB) is controlled using integrated pest management (IPM), which combines various techniques including field sanitation, pruning, spraying of pesticides, and harvest, as no single method will control CBB on its own.

UH-CTAHR, USDA and HDOA welcomes you to join us at this informational CBB IPM and research update workshop for coffee farmers.

If you have been to a CBB 101 workshop in the past, understand the basics of CBB and its management, have been able to manage CBB to a level that is satisfactory to you, but want to learn about current techniques and research, this workshop is for you.

This free event is hosted by UH-CTAHR and HDOA and funded by the college and USDA.
