

Fit Test Record

According to the PERC Worker Protection Standard (WPS) Respirator Guide:

A written record of the fit test must be maintained for two years from the date conducted and must contain the following information at a minimum:

- Name of handler tested,
- Type of fit-test performed,
- Make, model, and size of the respirator tested,
- Date of the fit-test, and
- Results of the fit-test:
 - Pass/fail for qualitative fit-test
 - Fit factor determined, strip chart recording or other record of the test results for a **quantitative** fit-test.

The following record sheet was adapted from Oregon OSHA's materials found at the Pesticide Education Resources Collaborative (PERC). It is meant to serve as a model for a form that can be used during the fit test to record data (sensitivity and fit test results), and then kept on file to satisfy WPS recordkeeping requirements.

Fit Test Record

Date: _____

Employee name: _____

Job/Classification: _____

Farm/Company: _____

Fit test method (circle one): Qualitative saccharin Qualitative bitrex (*for either of these, the respirator must have particulate filters*)

Qualitative IAA (*respirator must have organic vapor cartridges*)

Taste Threshold Results (Circle one)

10 squeezes 20 squeezes 30 squeezes

$\frac{1}{2}$ to be administered every 30 seconds during Fit Test Exercises (Circle one).

5 squeezes 10 squeezes 15 squeezes

Type of respirator	Make/model/size (Must include all three)	Fit factor/results (Circle one)	
		Pass	Fail
		Pass	Fail
		Pass	Fail
		Pass	Fail

Person conducting the fit test: _____

Problems the employee encountered with respirator:
